
TAKE THIS UNIQUE OPPORTUNITY TO TRY ENPHASE AT NO ADDITIONAL COST!

Enphase is the leading microinverter manufacturer globally, with over 1.2 million homes using the smart solar technology. Not only does the homeowner enjoy benefits such as a **25 year product warranty, superior reliability and performance**, our installers benefit from increased flexibility, simple installation and intelligent monitoring controls.

Upgrade
to Enphase,
for free!

OFFER TERMS:

- Installer must be a new Enphase installer customer: They should not have purchased or activated Enphase products after 1st January 2020 from any distributor or source.
- Enphase will cross-check customers eligibility with our databases and systems, and our decision on eligibility shall be final.
- Rebate is once per installer customer. Systems must be live, and connected to Enphase servers before 31st March 2021, and should only be located within the United Kingdom.
- Valid only for systems purchased from the distributor between 25th January 2021 and 26th March 2021. Systems should be designed and installed in accordance with guides at <https://enphase.com/en-uk>
- Upgrade means: you will receive a complimentary upgrade to Enphase, from competitor products as nominated by Midsummer Energy.

This promotion is handled by Midsummer Energy, in collaboration with Enphase. Enphase is not responsible to the end customer for purchasing incentives specific to distributors. Please refer to the distributors own terms and conditions. The promotion is by invitation-only, and once new installer limits are reached, the scheme will end without communication.
