

HSBC 200 S (GB) set

DHW CYLINDER

PRODUCT-NO.: 236917

With the integral HSBC 200 S cylinder, instead of having the DHW cylinder and buffer cylinder standing side by side, they are arranged in a single appliance, piggyback style. This almost halves the space required and means the appliance can be installed in the smallest rooms – for more available floor area.

Excellent solution for detached houses.

Precisely matched to use with one heat pump, the HSBC covers everything required in a detached house in relation to heating and DHW, All that and in a convenient format, too!

The main features

Combi appliance comprising a DHW cylinder and a buffer cylinder

Halves the installation space required for individual cylinders

Compact, compatible and energy saving for use in detached houses

Perfectly matched components for use in conjunction with an air | water heat pump for DHW and room heating
