

Eurener reaffirms its global commitment to sustainability and receives EcoVadis' highest distinction

Eurener, a European manufacturer of photovoltaic modules with over 25 years' experience, has received the prestigious EcoVadis Platinum Medal for the second consecutive year. **This recognition places Eurener among the top 1% of the most sustainable companies assessed globally.**

EcoVadis, one of the world's leading corporate sustainability rating platforms, has once again recognised Eurener's strong performance in areas such as the environment, labour practices, human rights, and ethics. This distinction, the highest awarded by EcoVadis, reflects Eurener's ongoing dedication to corporate social responsibility, the circular economy, and decarbonisation.

"This recognition reinforces our vision of a more ethical, responsible and transparent PV industry. We don't just manufacture high-efficiency solar modules; we also promote a business model that aligns with the highest global sustainability standards", says Pasquale Zazo, Eurener's Commercial Director.

The EcoVadis Platinum Medal is awarded exclusively to organisations that achieve scores above the 99th percentile following a rigorous evaluation process based on international criteria, including those of the United Nations Global Compact, the International Labour Organisation (ILO), and the Global Reporting Initiative (GRI).

This recognition comes at a time when the demand for clean energy is accompanied by a growing demand for the sustainability of the entire supply chain — an area in which Eurener is recognised as a European leader.

About EcoVadis

EcoVadis is the world's leading platform for corporate sustainability assessments. To date, it has assessed more than 125,000 companies in over 175 countries. Its ratings help organisations to improve their sustainable performance and foster a more responsible value chain.

About Eurener

Eurener is a European solar module manufacturer with over 25 years' experience. The company is recognised for its quality, innovation and commitment to sustainability. With headquarters in Spain and an international presence, the company is committed to local production, the circular economy, and environmental excellence as the strategic pillars of its activity.

CERTIFICATE

This is to Certify that the Management System of
EUROPEAN ENERGY WORLD, S.L. (EURENER)

Calle Colón, 1 Puerta 23. City: Valencia
Post Code: 46004 Country: Spain.

has been found to conform to the Quality Management System standard:

ISO 9001:2015

This certificate is valid for the following scope of operations:

**Design and Manufacturing Management of
photovoltaic modules**

:: Certificate No :: ES56033A

<u>Date of initial registration</u>	<u>Date of this Certificate</u>	<u>Surv. audit on or before / Certificate expiry</u>	<u>Recertification Due</u>
31 October 2022*	19 October 2024	30 October 2025	30 October 2025

This Certificate remains valid subject to satisfactory surveillance audits.

*(Note:- Certification Registration is Transferred from KAB
So Date of Initial Registration is Subject to previous Registrar.)

Director

Solar Industry Forced Labor Prevention Pledge

We, the undersigned companies and organizations, state our firm opposition to the use of forced labor within the solar supply chain. We hereby commit to helping ensure that the solar supply chain is free of forced labor and raising awareness within the industry on this important issue. To assist in these efforts, we support the development of an industry-led solar supply chain traceability protocol as a tool for identifying the source of primary raw materials and inputs and tracking their incorporation into finished products, including solar modules.

More than 370 companies have signed this Pledge:
