

EP SERIES FACTSHEET

HIGH-VOLTAGE BATTERY STORAGE

The EP Series is a high-performance, scalable battery storage system. Batteries are wall-mounted, and with their sleek design and slim profile (a depth of only 14.7cm) are suitable for a range of install locations.

-  **90%**
DoD
-  **WARRANTY**
5
YEARS
(EXTENDABLE)
-  **IP65**
RATED

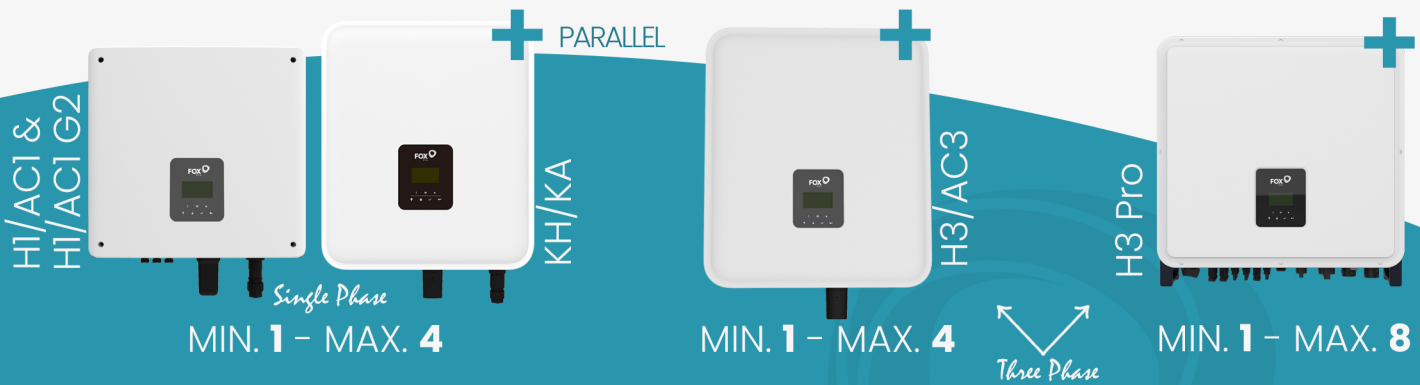

GOOD TO KNOW:

The EP batteries can be installed in parallel for scalability using a 4-way parallel junction box supplied by Fox ESS.

BATTERY MODELS EP5/EP11 (5.18kWh/10.36kWh)

Pair your EP5/EP11 batteries with any of our single and 3-phase hybrid inverters & AC chargers:

EP5
MIN. CAPACITY
5.18kWh
MAX. CAPACITY
20.72 kWh
41.44 kWh (H3 Pro Only)

EP11
MIN. CAPACITY
10.36kWh
MAX. CAPACITY
41.44kWh
82.88kWh (H3 Pro Only)

Introducing
Fox Cloud 2.0
ADVANCED SYSTEM MONITORING

+ Install up to 10 inverters in parallel for system scalability*

*Please note, 10 inverters can be installed in parallel when on-grid. In EPS mode the maximum is 4 and for the H3 and H3 Pro model, will require an EPS parallel junction box.
