

Build your business with the GivEnergy

All in One

The GivEnergy All in One is a one of its kind home battery and inverter – unrivalled for power and price point.

Meanwhile, the Giv-Gateway protects supply and keeps properties running during power cuts.

When you work with the All in One system, you're working with the ultimate home battery.

- **13.5KWh** capacity as standard - from a single battery
- Connect up to 6 systems in parallel and achieve **80kWh** of useable **energy storage**
- Ability to deliver an enormous **18.4kW** of power into your home

WHY INSTALL THE

All in One and Giv-Gateway?

Rapid installation times

Taking circa 4 hours to install, you could feasibly complete 2 quick, clean projects in a single day.

High demand

The All in One is set to become the most popular product in the GivEnergy range. Your services will be much sought after.

Easy manoeuvrability

The All in One is modular, with 4 removable battery packs. So, no need to lug one large heavy piece of kit.

Little fitting required

With inbuilt isolator, CT clamp, metering, switchgear, and a gateway requiring no additional distribution board – there's little to fit and minimal wiring.

Easy to commission

You're installing a single, integrated, floor-standing product that's a breeze to commission while looking great.

Disruptive

You'll be fitting a truly disruptive product. Nothing like it on the market can compete when power, features, and price are factored in.

Premium end product

When you take on a premium All in One project, you'll be working with customers with serious spending power.

Unique

The Giv-Gateway keeps third-party solar inverters on during outages – enabling them to continue powering the home.

Order now

As a special launch gift to our installers, we're giving away a Giv-Gateway with every purchase of an All in One. (RRP £329 per Giv-Gateway.)
And, as a little something extra to mark the launch, the first one thousand All in One systems come with a free limited edition GivEnergy sweatshirt.
Order now to take advantage of the limited time offer.

Let's do business

The All in One is ready to go right away. Contact your local distributor to check stock and get your orders in.
We look forward to disrupting the market with you.
