

ROOF INTEGRATED SOLAR MADE EASY

WHERE AESTHETICS AND PERFORMANCE MATTERS

SolFit is an innovative roof integrated solar PV system designed and developed in the UK by solar installers with decades of solar and roof experience. Using a patented interlocking frame design partnered with high output tier one 370Wp PV laminates, SolFit offers a highly aesthetic waterproof and durable PV roof system. Its sleek, all-black design can withstand the harshest of UK weather and will deliver high output solar energy for the next 25 years and beyond.

WHY INSTALLERS LOVE SOLFIT

SolFit has been designed by installers for installers.
We've done the thinking so you don't have to.

Simpler SolFit is designed around an ingeniously simple interlocking framing system. There are no fiddly seals or gaskets, plastic mounting trays or lead to worry about. You just push each PV tile into place to form your strong and watertight solar roof.

Faster & Safer Installed from the top of the roof down – ridge to eaves – SolFit is faster and safer to install than other systems, cutting hours of installation time.

Compact 27 panels per pallet – substantially more than other BIPV products.

Low angle installation
Down to <20 degrees.

Versatile SolFit can be installed on any roof, from the smallest residential home to the largest commercial warehouse and is compatible with all roofing materials.

Strength SolFit has been tested at the Building Research Institute to handle in excess of 3500Pa – well above the highest wind speeds in the UK.

High output 370Wp.
The highest output roof integrated panel on the market – squeezing more Watts out of every square metre.

Metal bottom flashing
Sharp and neat detail.

WHY CUSTOMERS LOVE SOLFIT

Long-lasting The strong, durable design with guaranteed weathertight for 15 years.

Flush No room for nesting birds, rodents or trapped leaves.

Aesthetic SolFIT has a great sleek all-black in-line look, so it looks superb on any kind of property.

Adaptable Can be used with any type of slates or tiles.

High efficiency High 370p output.

Cost saving No need for slates or tiles under the array saving money.

Ridge to gutter

Commercial applications

Sleek, flush aesthetic

Compatible with all tile types

Quicker, safer, easier to install

“Without doubt, SolFIT is the best roof-integrated solar PV product we’ve ever used, It’s simply revolutionary”

Keir Marsden, MD Glow Solar
