

**VAN DER VALK**

Developer and producer  
of solar mounting systems

## Van der Valk quote necessary information:

The following is a list of information that's required to get an accurate Van der Valk quote for your project. Please provide this information when contacting us for a quote.

1. Site address
2. Surroundings (sea, country, city)
3. Are there tall buildings surrounding the site?
4. Distance from shoreline (approx)
5. Roof dimensions
6. Roof type (flat, inclined)
7. Roof covering
8. Is there gravel present?
9. Any obscuring trees?
10. Dimensions and positions of any areas within the site that need to be avoided.
11. Do you want side plates?
12. Will the project be using microinverters?

If you give answers to these points and any other relevant details to our account handlers we can get you an exact quote for your project.

**To start the process email the full details to [Trade@midsummerenergy.co.uk](mailto:Trade@midsummerenergy.co.uk)**
